State of Ohio Certified Backflow Device Testers

The backflow testers that are listed below are certified testers that the Bryan Water Department regularly works with and are familiar with the City of Bryans Backflow Prevention Program. If you contact a tester that is not listed here, you must also submit the testers State of Ohio Certification with your completed results. If you have any questions regarding your backflow tester and need assistance please contact the Bryan Water Department staff and they will be able to assist you.
